ABOUT ORBIT PREFAB

Innovative Labor Saving Solutions

As an electrical manufacturer founded by contractors, Orbit Industries has always known the importance of efficiency on the job. Since our inception in 1997, Orbit has consistently developed innovative electrical products, establishing itself as one of the leading manufacturers in the electrical industry.

Today, Orbit's Prefab line continues to deliver engineered solutions for optimizing job site productivity and flexibility during installations. Our products are designed with contractors in mind to provide the following features:

- *Efficient installations for reduced labor*
- *Increase safety and bring the construction environment to the comfort of a controlled environment*
- *Allow contractors to bid and complete jobs more effectively*
- *Reduction of on-site mistakes and waste*

The Orbit Advantage

With a team of industry experienced sales representatives and talented engineers, Orbit provides innovative, quality products with convenience not found anywhere else.
The Orbit Advantage includes:

- *State-of-the-art automated manufacturing facilities that consistently produce quality products*
- *Industry experienced sales and engineering teams*
- *98.7% fill rate with over 6,000 products in more than 11 different product lines, ready to ship*
- *Compliance with safety standards and electrical codes*

Quick Response Manufacturing (QRM)

As a privately owned manufacturer, Orbit has the capabilities to produce products specifically upon request. Our 90-day Quick Response Manufacturing (QRM) policy can take your innovative ideas and bring them into market in just 90 days. Some examples of products developed through QRM are the **Recessed Light Adapter Plates (pg 17), Box & Conduit Hanger Support Plates (pg 18), Easy Access Lighting Boxes (pg 20) and more.**

TRADITIONAL MC BOXES

Traditional MC boxes don't mount easily to bar hangers, due to ground screw interference. Straight clamp screws prevent installers from securing cable when the device ring is attached. Attempting to tighten clamp screws with the ring attached can strip screw heads - and even cause the installation to be re-worked!
